

If you have time for a 30 minute overview such as a professional organization board meeting, a short keynote, a webinar or teleconference:

Learning Objectives

- Understand the Wisconsin Standards for Career and Technical Education.
- Understand that these six sets of standards include the Wisconsin Common Career Technical Standards (WCCTS) that transcend all CTE program areas. Learn where the WCCTS exists within current courses.

Resources

- Use slides 1-8-Agenda 2017; 9-12-Vision of CTE; 13-15-CCTC; 16-19-WCCTS; 20-CCSS and CTE; 21-Stay Connected; 22-Questions
 - To “hide” slides from the master PowerPoint, open the PPT, make sure you are in “slide” mode on the left side of the screen, and right click on the slide you want to hide. At the very bottom it says “hide slide”. The slide will then not show up in your presentation. To “unhide”, right click again, then click “hide slide” again.
- If you have time for an activity...Slide 17: In small groups, discuss how these standards are addressed or could be addressed in certain courses. Include many or all of the CTE program areas.
- Handouts (you will need to make copies of these):
 - *What Value does your program bring to your community* (worksheet)
 - *Course Name Activity* (worksheet)
